Focus –TFSE has broad aims of Economy, Network Capability, Safety, Integration & Environment. West Kent (Tonbridge, Malling, Sevenoaks District communities are eaten alive by passing through traffic, suffering poor air quality because there are no M26/A21 East Facing Slip Roads in the vicinity of the M25 J5 Sevenoaks. This TFSE required our email/letter or on-line completion sent to them by 10 January 2020. We successfully delivered our community responses and now await the final outcome of the TFSE 2020 Consultation.

Dear friends welcome to the January edition of **My Community Network** for keeping you informed of issues that I am representing you on at TMBC. I am a local family man, born and bred in Borough Green. Business man, ex - school governor, Parish & T&MB councillor. My mission includes building a network of support in my political work for improving our community and to represent our people. *This month's edition focuses on 'The Transport for the South East Consultation Strategy'*

Fact – This was a consultation into the South East Strategic Road and Rail Network and a Golden Opportunity for communities to let TFSE know how important it is for West Kent to have full connectivity between M26 & A21, and with the National Motorway Network in the vicinity of J5 Sevenoaks. A consultation to take National & European Traffic as well as Air Pollution out of our villages near our Schools, Shops and Post Offices where our children and elderly walk. TFSE comprises 16 Local Transport Authorities, 5 Local Enterprise Partnerships, 46 District and Borough authorities & wider key stakeholders.
