J5 Slips – Highways Agency Scheme

West Kent is eaten alive by passing through traffic from lack of M25 J5 Slip roads infrastructure at Sevenoaks. 250 new homes will generate circa 500 new cars in Borough Green alone and numerous service vehicles such as home delivery. Local Primary and Secondary schools are already stretched. NHS and Private dentistry is at full capacity. NHS Medical Surgery is at full capacity. Meet the family supporting my work for the betterment of our community. Thanks for your continued support going forward!

John 20: 29

Dear friends welcome to **Community Network** for keeping you informed of issues that I am representing you on at TMBC. I am a local family man, born and bred in Borough Green and went to both local schools. Business man, ex - school governor & T&MB councillor. This edition focuses on the need for adequate infrastructure to support mass housing schemes. *Please read in conjunction with the article produced by the Sevenoaks Chronicle. Please feel free to Email onto friends and family to grow the network.*

We all need homes for our families and our children in the community. But we also need to ensure that there is adequate community infrastructure to support such mass housing. In Borough Green alone, at Stone Court, Isles Quarry and A – Z Maps, these will generate another 250 families yet next to no provision has been considered for services to support such demand.
